2008

**ASSIST IN SEARCH AND RESCUE
PRACTICAL ASSIGNMENT**

PASS MARK = 20

TOTAL MARKS AVAILABLE = 30

Pages in this Question Booklet = 4

With written tasks organise your assessment into a soft folder. Avoid using plastic sleeves, as your assessor needs to make marking notes and give you written feedback directly onto your work.

Ensure the number, assessment task title; your name is on the title page.

Element 1 Practical - Assist in planning search and rescue operations

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

- Studying your Squad’s SOP’s for gathering task and operational information.
- Interrogating a simulated witness using open & closed questioning.
- Determining simulated rescue locations from task information.
- Devising a simulated search plan with LKP and probable position after delay.

Discuss as a team, the method of a safe approach, allowing for anticipated dangers and hazards. Read the accompanying workbook, “Concise Marine Rescue Terms.” Remember to complete your log book.

Element 2 Practical - Establish and maintain radio-communications

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

- Send a DSC routine message.
- Send simulated priority calls and messages.
- Complete a simulated radio logbook entry and incident report.

Discuss as a team, the method of a safe approach, allowing for anticipated dangers and hazards. Remember to complete your log book.

Element 3 Practical - Assist in search and rescue operations

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

- Studying Squad SOP’s for gathering task and operational information.
- Determining simulated rescue locations.
- Practice of emergency procedures.
- Collection of records for a de-brief.

Discuss as a team, the method of a safe approach, allowing for anticipated dangers and hazards. Remember to complete your log book.
