2008

**Conduct Briefing and De- briefing
PRACTICAL ASSIGNMENT**

PASS MARK = 20

TOTAL MARKS AVAILABLE = 30

Pages in this Question Booklet = 4

With written tasks organise your assessment into a soft folder. Avoid using plastic sleeves, as your assessor needs to make marking notes and give you written feedback directly onto your work.

Ensure the number, assessment task title; your name is on the title page.

Element 1 Practical -Prepare for the brief/debrief

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

Use the headings below to design a “brief check list form” and a “de-brief check list form” that facilitates the planning process.

- Timing, location, participants, purpose, method.
- Damage to the incident vessel, fatalities, Injuries.
- Control, command, communications, supporting organisations.
- Incident response and assessment of response strategy.
- Resources, equipment and plant committed to the incident
- First aid, medical, Welfare, Stress
- Strategies to improve response
- Adequacy of initial briefing and analysis of performance against objectives.

Discuss as a team. Read the accompanying workbook, “The bare facts of Marine SAR.” Remember to complete your log book.

Element 2 Practical - Conduct the brief/debrief

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

- Brief and De-brief the crew for a training session.

Discuss as a team. Read the accompanying workbook, “The bare facts of Marine SAR.” Remember to complete your log book.

Element 3 Practical - Conclude the brief/debrief

Your Skipper will provide as many opportunities as possible to practice the previous skills during simulated rescue operations or “on the job training”. Practice activities for this element of competency include:

- Gather the documentation from a previous SAR operation of your squad and write a specimen report with your recommendations.

Discuss as a team. Read the accompanying workbook, “The bare facts of Marine SAR.” Remember to complete your log book.
